To Our Friends:

With this document, we hope to provide you with background information about Bianco Properties. Our goal in the following pages is to communicate that we are knowledgeable real estate professionals, fair and reasonable in our dealings, thoughtful and conservative in our investments, and passionate about what we do.

We hope you will visit our properties and meet our people. We are proud of both.

I or Allan Steele would be pleased to provide additional explanation or answer questions about the information included on the following pages.

Sincerely,

Daniel M. Wolk, President
Bianco Properties has been strategically investing in retail, apartment and industrial real estate for 50+ years. We are owners of 2,300,000+ square feet of commercial and industrial space including 26 retail properties ranging in size from 6,000 to 141,475 square feet, plus raw land, and two industrial campuses.

In addition, the company also owns 144 luxury high-rise apartment units in two complexes. Our investments are located in the greater metropolitan areas of Seattle, St. Louis, Dallas, Indianapolis, Chicago and Minneapolis.

Currently our portfolio contains 32 properties with more than 500 tenants. The portfolio has an estimated market value of $400,000,000.

Our firm was incorporated in 1956 as a general investment company and in 1969 began to focus on real estate investments. Our main office is in St. Louis and we have a second office in Seattle. Bianco Properties buys and holds for the very long term and a majority of the investments made by Bianco Properties over the years remain in our portfolio. The average hold period for the portfolio exceeds 16 years.

Our investment profile is that of an investor seeking retail, warehouse and distribution properties in major metropolitan areas with good air connections with St. Louis.

We have worked hard to build a reputation in the real estate community as knowledgeable investors who perform promptly and buy quality properties.
Introduction
Concluding early that real estate has the somewhat unique characteristic of combining the creation of wealth with a vehicle for the reinvestment of that wealth, we have sought from the outset to position Bianco Properties primarily as an owner-manager. With that as a goal and after many years of commercial real estate investment and management experience, Bianco Properties has developed an investment philosophy that can be summarized as follows:

**Purchase Only for our Own Account:** We invest using funds generated internally by our principal investors. We are neither brokers nor syndicators. We are investors only.

**Buy Quality Real Estate:** Although buying quality properties in superior locations in major markets provides lower initial yields, these properties perform better over the long term.

**Focus on the Fundamentals:** Location is always the most important criterion, but factors such as layout, access, design, visibility and operational efficiency are also critical.

**Invest For the Very Long Term:** Selling properties only to replace them with comparable real estate incurs substantial transaction costs and exposes the investors to the downside risks of an unfamiliar replacement investment. The tax and other economic transfer expenses of sales are significant. We plan from the outset to acquire quality properties that will be profitable over a long period.

**Tender Loving Care:** We take care of what we own by giving high priority to the management of our existing investments. We maintain our properties in first class standards because we intend to own them over a long time frame.

**Property Management:** We self-manage our properties. Regardless of how expert a fee management firm may be, we believe it is unlikely to care as much about a real estate investment as do its owners. We spend the time needed for the extra attention to detail required for quality management, and this explains why we only manage properties that we own. During our long ownership period, our management effectiveness increases as we accumulate knowledge and understand the history of each property.

**Specialization in Property Types:** We stay with property types and activities in which we have expertise and remain focused on expanding our retail and industrial portfolios. As the terms are normally used, we are owners and asset managers; we are not developers or syndicators.

**Investment Timing:** We invest opportunistically and not because of the availability of capital. We make investments when we have an opportunity to buy desirable real estate at a realistic price and under conditions that don’t create undue risk.

**Negotiating:** We try to position the firm to negotiate from a position of strength and avoid situations where tenants have undue negotiating power.

**Use Debt Wisely:** We try to optimize debt financing. We use reasonable loan to value ratios of 55% to 70% to leverage our purchases without taking on the undue exposure to risk that may occur during business downturns.

**Consistent but Open to Change:** We regularly refine our investment objectives. As long-term owners and managers, we are constantly trying to learn from where we have been and sharpen our focus on where we want to go.
Our Values: The firm’s values are expressed through the standards of the staff. Teamwork, continuous communication, openness, and ethical conduct are primary goals. Senior executives strive to be multi-functional with overlapping expertise.

As a group, the staff works towards a goal of “no surprises” by anticipating issues and informing relevant associates. For the past fifty years, Bianco Properties has had a good reputation and the respect of others in the industry. We intend to maintain that reputation and respect for the next fifty years.

Structure of Investments: Each investment is held through a limited liability company of which Bianco Properties is the managing member and is responsible for the acquisition, financing, day-to-day management, and leasing as the representative of the property owner.

As a strategic real estate asset manager and investor, Bianco Properties determines the long-term operation of the portfolio by managing the debt levels, improvements, refinancing and the asset mix.
Key Staff: Including on-site staff, the Bianco team totals approximately 30. The St. Louis office has a staff of 18. The executive staff members, all of whom are both owners and managers, are listed in their order of seniority:

Carl A. Bianco, Chairman, assumed operational control of the company in 1969 and progressed over the years from functioning as a one-man operation to his present position of developing and supporting a team of real estate professionals.

Dan Wolk, President, oversees all of the day to day operations and the general management of the company. Danny’s 25+ years with Bianco Properties began in 1993.

Mike Goggins, Director of Information Technologies, is responsible for the company’s electronic systems and for keeping us current with new technologies. Mike has been with the company since 1996.

Allan Steele, CPA, Chief Financial Officer, is responsible for managing the Company’s finances, including management of financial risks and analysis of data. Allan came to Bianco Properties in 2006.

Joseph Levine, General Counsel, provides in-house legal services and management of outside counsel. Joe joined us in 2009.

Julie Stein, Controller, directs the accounting department and is the administrator of Human Resources. Julie joined our team in 2010.

David Willis, Vice President - Leasing, heads the department responsible for all commercial leasing activity. David became a member of our team in 2011.

Josh Bacott, Vice President - Acquisitions & Property Management, is responsible for the expansion of the company’s investment portfolio and supervises the operations of the commercial properties. Josh joined Bianco in 2015.

Brad Eisel, Leasing Associate, Brad represents the company in leasing the retail and industrial portfolio. Brad has been a part of the team since 2016.

Steve Flens, Property Manager, is responsible for managing a portfolio of the company’s commercial properties and joined Bianco in 2017.

Gerard Mudd, Property Manager, is our newest member of the team. Gerard is responsible for managing a portfolio of the company’s commercial properties.
